

Repair with Care

helps elderly and disabled people carry out essential repairs, improvements and modifications to their homes.

The service is designed to offer owner-occupiers and private tenants help with securing funding for essential works and then advice and project management with carrying out the works.

Repair with Care can arrange:

General building works and minor repairs;

Adaptations to bathrooms and showers;

Installation of stair lifts;

House insulation.

Who can we help?

You can use the service if you are aged 60 and over or have a disability. You must also be a home owner or a private tenant and live within the Royal Borough of Windsor and Maidenhead.

How does Repair with Care work?

A member of the Repair with Care Team will visit your home to discuss your needs and then we will help you to identify any repairs, improvements and/or adaptations that are required.

If you then decide to go ahead and cannot afford to pay for the work, we will apply for grants and funding for the work to be carried out. We will also recommend a reliable builder.

The advice given by the Repair with Care Team is free. If we organise any building work or adaptations you may be charged a small fee which will contribute towards our running costs. Usually, this fee can be included in any grant, which covers the cost of the work.

We also offer a Handyman Service for small DIY jobs around the house that you may not be able to do yourself. This ranges from simply taking down curtains or fitting new curtain rails to repairing broken fences.

The service is funded and supported by the Royal Borough of Windsor and Maidenhead and the local Primary Care Trust.
